SKIN HISTORY

When was your last full skin cancer examination?

Do you have NEW MOLES or spots or do you (or others) have CONCERNS about any of your moles or spots?

Have any of your moles increased in size, or changed in ANY way? (eg become darker, raised, developed lumps, changed colour, decreased in size)

Do any of your moles or spots sting, itch or bleed?

.....

Do you have a family history of MELANOMA?

Is there a family history of other skin cancers like SCC or BCC's?

Have you previously had skin spots or cancers removed surgically? (If yes, please state (a) From which part of your body (b) the diagnosis if known)

.....

Did you sustain any blistering sunburn prior to your 15th birthday? And approx. how often?

.....

What colour was your hair when you were 5 years old?

Please circle one of the following that best describes your skin: After 30 mins in the sun, do you.....

- a. Always burn, never tan? b. Always burn, sometimes tan?
- c. Sometimes burn, always tan? d. Never burn, always tan?

Have you sustained any exposure to the following: Arsenic, Bell's asthma mixture, cattle dips, herbicides, tar, radiation (not including Xrays), WELDING FLASH?

What is your occupation? *

How many hours would you spend in direct sunlight per week, on average? (Occupational + Recreational)

.....

Is your skin known to KELOID or "over scar"?

Have you had any non-surgical treatment of skin cancers or spots previously (eg efudix or aldera or phototherapy)?

Are you DIABETIC, (or have you been) on CHEMOTHERAPY or KIDNEY FAILURE TREATMENT?

.....

Are you on WARFARIN, CLOPIDOGREL– OR OTHER BLOOD THINNERS?

Do you have ANY IMPLANTED DEVICE in your body eg PACEMAKER, Cochlear implant?

.....

Is there any other factor we should take into consideration before offering any surgical treatment? (eg might it affect your occupation? Do you travel often? etc)

.....

OTHER ITEMS YOU MAY WISH TO ADD?

.....

THANK YOU

***One's occupation can influence skin cancer rates and post-operative recovery.
